

Vegetable Seeds-2025

TOMO

F1 Hybrid

- **Semi-Determinate Type Hybrid Tomato**
- **Oval Shaped Fruit**
- **Early Maturing (60-70 Days After Transplant)**
- **Average Fruit Weight 100-110g**
- **High Shelf Life**
- **Safe for Transport to Markets**
- **Climate Resilient**
- **Resistant to Virus (TYLCV)**

KUMATO

F1 Hybrid

- **Semi-Determinate Type Hybrid Tomato**
- **Oval Shaped Fruit**
- **Early Maturing (70-75 Days After Transplant)**
- **Strong and Bushy Plant with Vigorous Growth**
- **Average Fruit Weight 110-120g**
- **High Shelf Life**
- **Safe for Transport to Markets**
- **Tolerant to Extreme Climatic Conditions**
- **Ability to Maintain Weight till Last Picking**
- **Resistant to Virus (TYLCV)**

PARWAZ

F1 Hybrid

- **Cluster-Upright Type Hybrid Hot Pepper**
- **Highly Pungent, Bright Red Colored Fruits**
- **Early Maturing**
- **Strong Plant with Vigorous Growth**
- **Average Fruit Length 8-9 cm and Dia 1.1-1.2cm**
- **Short Duration for Next Picking**
- **Safe for Transport to Markets**
- **Tolerant to Extreme Climatic Conditions**
- **Even after drying, the shine is Retained.**
- **Resistant to Virus**

REDON

F1 Hybrid

- **Cluster-Upright Type Hybrid Hot Pepper**
- **Very Pungent Red Colored Fruits**
- **Early Maturing**
- **Tolerant to Lodging due to Long Taproot**
- **Average Fruit Length 7-8 cm and Dia 1.2-1.4cm**
- **Safe for Transport to Markets**
- **Tolerant to Heat and Dry Weather**
- **Resistant to Virus**

HOT QUEEN

F1 Hybrid

- **Desi Type Hybrid Hot Pepper**
- **Green Colored, Pungent Fruits**
- **Early Maturing**
- **Can be Grown in Tunnel and Open**
- **Ability to Give More Number of Picking**
- **Average Fruit Length 6-6.5 cm and Dia 2-2.5cm**
- **Short Duration for Next Picking**
- **Good Shelf Life, Safe for Transport to Markets**
- **Resistant to Disease and Virus**

HINA

F1 Hybrid

- **Long Type Hybrid Hot Pepper**
- **Short Stature and Vigorous Plant**
- **Early Maturing**
- **Ability to Maintain Size till Last Picking**
- **Average Fruit Length 13-16 cm and Dia 1.0-1.3cm**
- **High Fruit Weight due to More Number of Seeds**
- **Resistant to Disease and Virus**
- **Good For Export Market**

GREENIA

F1 Hybrid

- **Fast Growing Vigorous Plant**
- **More Number of Productive Branches**
- **Soft and Dark Green Colored, Attractive Fruit**
- **Early Maturing (40-50 DAS)**
- **Good Field Holding Capacity**
- **Less Spines on Fruit, Easy for Picking**
- **Good Heat Tolerance**
- **Uniform Yield in all Seasons**
- **Good Resistance Against Diseases and Virus (YVMV)**

PAYAL

F1 Selection

- **High Yielding Super Selection Variety**
- **Fast Growing Vigorous Plant**
- **Strong Plant, More Productive Branches**
- **Soft and Dark Green Colored, Attractive Fruit**
- **Early Maturing (45-50 DAS)**
- **Good Field Holding Capacity**
- **Less Spines on Fruit, Easy for Picking**
- **Good Heat Tolerance**
- **Ability to Maintain Green Color in Rainy Season**
- **Good Resistance Against Diseases and Virus (YVMV)**
